

## AGENDA

October 26, 2011

1. Teacher Quality Grant
2. Presenter: Dr. Mike Mays - Topic: A Teacher Education Partnership for Mathematics

APLU (The Association of Public and Land-Grant Universities) recently sponsored a forum on Higher Education and Common Core State Standards. They announced a special interest group to be formed called the MTE-Partnership, focused on designing teacher preparation programs to support the Common Core State Standards. West Virginia has adopted these standards as the Next Generation West Virginia State Standards. I hope to have WVU build a team of other WV colleges and universities, along with middle and high schools, to participate as a core partner in this initiative. An application is due by mid January, to include supporting documents from potential team members. More information about the APLU program is online at <https://www.aplu.org/sslpage.aspx?pid=2166>

3. Other Items?
4. Choose Final Meeting Date
4. Next Meeting Date: February 29 at Fairmont with Lou Maynus
